EXCELLENCE

Axiom Materials is a leader in specialty advanced composite solutions based in Santa Ana, CA. We operate a total of four manufacturing facilities covering more than 100k square feet with a variety of equipment lines, including Hot Melt, Vertical Solution, and Horizontal Solution.

OUR PRIMARY PRODUCT LINES

Ceramic Matrix Composites
Polymer Matrix Prepregs

Honeycomb Cores
Film Adhesives

We also carry a variety of ancillary products, including tooling prepregs, primers, adhesives, panel fillers, and sealing resins.

OUR FACILITIES

Three of our four facilities are located in Santa Ana, CA. The Aerospace Materials and High Temperature Materials facilities are adjacent to one another while the Industrial Materials facility is just up the road. Our fourth facility, Axiom's honeycomb core manufacturing facility, is located in Carlsbad, CA.

The Axiom team consists of nearly 200 dedicated professionals, about 40% of whom have a technical (STEM) background. Our people make Axiom Materials the company it is. We take great pride in our team's knowledge, experience, and daily dedication.

INDUSTRIES WE SERVE

Axiom Materials was founded on the principle of combining high-quality prepreg, adhesive, and ancillary composite products with industry leading customer-focused service. Our entire business model is built on an attitude of forward-thinking in both design and service.

- Aerospace & Defense
- Industrial & Energy
- Automotive & Motorsports
- Sporting Goods & Marine
- Medical / Other

What separates Axiom Materials from the competition? Our reputation for agility and flexibility. Every client we work with gets our full attention. Our goal is always to produce the exceptional, next-generation solutions our clients need, regardless of their requirements.

We strive to provide:

- Extensive product qualifications
- Strong technical and operational responsiveness
- Proprietary formulations and processes
- Knowledgeable engineering and product development
- Agile frameworks and robust synopsis

Axiom Materials has a proven track record of performance. We work extremely hard to develop productive relationships with our clients. Please note that we are AS9100D and ISO90012015 certified.
